Now showing 1 to 91 of 91 testcases.	

Summary

Id	Name	External Id
OI-T3 {1}	Application's adherence to the Orbis Style Guide	
OI-T7 {1}	Testing software in Orbis Amazon Web Services (AWS) Environment	
OI-T8 {1}	README file existance	
OI-T9 {1}	Sesame for data store	
OI-T11 {1}	Data shall consist of metadata from openFDA	
OI-T12 {1}	Software accessibility from either a mobile device, laptop or desktop	
OI-T13 {1}	The software shall operate in modern web browsers	
OI-T14 {1}	System runs on Firefox	
OI-T15 {1}	System runs on Internet Explorer	
OI-T16 {1}	System runs on Google Chrome	
OI-T17 {1}	Home Page shall include Wiley logo	
OI-T18 {1}	Home Page shall include selection objects, FDA statistics, release notes, help files, and contact information	
OI-T19 {1}	Home Page shall have selection icons	
OI-T21 {1}	Home Page banner displays total Food recalls	
OI-T22 {1}	Home Page banner displays total US recalls	
OI-T23 {1}	Home Page banner displays total year-to-date recalls	
OI-T24 {1}	Home Page banner displays average recalls per day	
OI-T25 {1}	Home Page banner shall display % yearly change in total recalls	
OI-T26 {1}	Home Page shall have donut graphs	
OI-T27 {1}	Donut graph shall display recalls by classification	
OI-T28 {1}	Donut graph shall display recalls by recall status	
OI-T29 {1}	Donut graph shall display numeric values	
OI-T30 {1}	Home Page shall have a bar graph	
OI-T31 {1}	Home Page bar graph shall display recalls by notification type	
OI-T32 {1}	Home Page bar graph shall display numeric values	
OI-T33 {1}	Home Page shall have a line graph	
OI-T34 {1}	Home Page line graph includes a timeline	
OI-T35 {1}	Home Page line graph includes a scrolling highlight line	
OI-T36 {1}	Home Page line graph includes a selection object	
OI-T37 {1}	Home Page line graph shall have zoom functionality	
OI-T39 {1}	Search window shall have selection icons	
OI-T40 {1}	Search window shall have additional selection icons	

Id	Name	External Id
OI-T41 {1}	Search window displays search results	
OI-T42 {1}	Search window display includes filters	
OI-T43 {1}	Search window shall have a line graph	
OI-T44 {1}	Search window line graph displays query results	
OI-T45 {1}	Search window shall have a query selection region	
OI-T46 {1}	Query selection region includes Search selection icon	
OI-T47 {1}	Query selection region shall include a search window	
OI-T48 {1}	Search window includes selection object for display options	
OI-T49 {1}	The Map View utilizes a US map	
OI-T50 {1}	The Tabular View displays a table	
OI-T51 {1}	Map View defaults to US map	
OI-T52 {1}	Search results default to blank	
OI-T53 {1}	Line graph defaults to empty graph	
OI-T54 {1}	Search window allows for saving queries	
OI-T55 {1}	Search window allows for naming queries	
OI-T57 {1}	Monitor window shall have selection icons	
OI-T58 {1}	Monitor window shall have additional selection icons	
OI-T59 {1}	Monitor window shall have a line graph	
OI-T60 {1}	Monitor window line graph displays query results	
OI-T61 {1}	Monitor window table displays top five queries	
OI-T62 {1}	Monitor window shall have a banner	
OI-T63 {1}	Monitor window banner shall display total queries	
OI-T64 {1}	Monitor window banner shall display the average query time (ms) over all data	
OI-T65 {1}	Monitor window banner shall display total year-to-date queries	
OI-T66 {1}	Monitor window banner shall display average queries per day	
OI-T67 {1}	Monitor window banner shall display yearly change in total queries	
OI-T68 {1}	Software Home Page includes a banner	
OI-T69 {1}	Software can process FDA metadata	
OI-T70 {1}	Software loads ontologies from a config file	
OI-T72 {1}	Overview services calculates total food recalls	
OI-T73 {1}	Overview services calculates total US recalls	
OI-T74 {1}	Overview services calculates total year-to-date food recalls	
OI-T75 {1}	Overview services calculates average recalls per day	
OI-T76 {1}	Overview services calculates yearly change in total recalls	
OI-T77 {1}	Overview services calculates % of total recalls by product type	
OI-T78 {1}	Overview services calculates % of food recalls by Class	
OI-T79 {1}	Overview services calculates % of food recalls by recall status	
OI-T80 {1}	Overview services calculates number of notifications by type	
OI-T81 {1}	Overview services calculates number of food recalls over time	
OI-T82 {1}	Search services calculates total food recall count over time	
OI-T83 {1}	Search services converts named locations to lat long locations	
OI-T84 {1}	Search services converts expressed locations to a map	
OI-T85 {1}	Save services shall be able to save queries	

Id	Name	External Id
OI-T86 {1}	Save services shall be able to name queries	
OI-T88 {1}	Monitoring services calculates total number of queries	
OI-T89 {1}	Monitoring services calculates query time (ms)	
OI-T90 {1}	Monitoring services calculate total year-to-date queries	
OI-T91 {1}	Monitoring services calculates average queries in a day	
OI-T92 {1}	Monitoring services calculates yearly change in total queries	
OI-T93 {1}	Monitoring services calculatest total number of query counts over time	
OI-T94 {1}	Monitoring services calculates total number of queries by type	
OI-T95 {1}	Monitoring services calculates the top five queries to date	
OI-T96 {1}	Monitoring services extracts total number of queries	
OI-T97 {1}	Monitoring services extracts total number of instances	
OI-T98 {1}	Search results default to blank	
OI-T99 {1}	The line graph defaults to empty	
OI-T100 {1}	Search window is able to save queries	
OI-T101 {1}	Search window can name queries	
OI-T103 {1}	Search window shall display all query results	

Details

1. Application's adherence to the Orbis Style Guide	
Id	OI-T3 {1}
External Id	
Description	To test the application adherence to the Style Guide
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R2 {1} - The software shall adhere to the Orbis Style Guide
Artifacts	
Test Steps	

2. Testing software in Orbis Amazon Web Services (AWS) Environment

Id	OI-T7 {1}
External Id	
Description	To test that the application is installed and functional on AWS
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R8 {1} - The software shall be deployed and tested in an Orbis Amazon Web Services (AWS) environment
Artifacts	
Test Steps	

3. README file existence

Id	OI-T8 {1}
External Id	
Description	Ensure that there is README file and that it includes a complete list of the project requirements.
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R9 {1} - The software shall have a README file that contains the project requirements
Artifacts	
Test Steps	

4. Sesame for data store

Id	OI-T9 {1}
External Id	
Description	To test that the system is utalizing Sesame for data store
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R10 {1} - Backend shall use Sesame for data store
Artifacts	
Test Steps	

5. Data shall consist of metadata from openFDA

Id	OI-T11 {1}
External Id	
Description	To test metadata existence in the application from openFDA
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R12 {1} - The data shall consist of metadata from openFDA
Artifacts	
Test Steps	

6. Software accessibility from either a mobile device, laptop or desktop

Id	OI-T12 {1}
External Id	
Description	To ensure the software can be accessed uniformly on mobile, laptop, and desktop platforms
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R13 {1} - The software shall be displayed uniformly from either a mobile device, laptop or desktop
Artifacts	
Test Steps	

7. The software shall operate in modern web browsers

Id	OI-T13 {1}
External Id	
Description	To test the application performance on IE, Firefox and Chrome.
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R14 {1} - The software shall operate in modern web browsers
Artifacts	
Test Steps	

8. System runs on Firefox

Id	OI-T14 {1}
External Id	
Description	System shall support the current and two most previous releases of Firefox browser
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R15 {1} - System shall support current and two previous releases of Firefox browser
Artifacts	
Test Steps	

9. System runs on Internet Explorer

Id	OI-T15 {1}
External Id	
Description	System shall support the current and the two most previous releases of Internet Explorer browser
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R16 {1} - System shall support current and two previous releases of Internet Explorer browser
Artifacts	
Test Steps	

10. System runs on Google Chrome

Id	OI-T16 {1}
External Id	
Description	System shall support the current and the two most previous releases of Google Chrome browser
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R17 {1} - System shall support current and two previous releases of Google Chrome browser
Artifacts	
Test Steps	

11. Home Page shall include Wiley logo

Id	OI-T17 {1}
External Id	
Description	To test the wiley logo presence on the home page.
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R20 {1} - The software Home Page shall include the Wiley logo
Artifacts	
Test Steps	

12. Home Page shall include selection objects, FDA statistics, release notes, help files, and contact information	
Id	OI-T18 {1}
External Id	
Description	To test that home page includes selection objects, FDA statistics, release notes, help files, and contact information
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R21 {1} - The software Home Page shall include selection objects, FDA statistics, release notes, help files, and contact information
Artifacts	
Test Steps	

13. Home Page shall have selection icons	
Id	OI-T19 {1}
External Id	
Description	Icons for Search and Monitor windows
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R22 {1} - The Software Home Page shall have selection icons for Search and Monitor windows
Artifacts	
Test Steps	

14. Home Page banner displays total Food recalls	
Id	OI-T21 {1}
External Id	
Description	Banner shall display total Food recalls since 1/1/2004 along with the caption "Total Recalls since 1/1/2004"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R98 {1} - The Software Home Page banner shall display total Food recalls since 1/1/2004 along with the caption 'Total Recalls since 1/1/2004'
Artifacts	
Test Steps	

15. Home Page banner displays total US recalls	
Id	OI-T22 {1}
External Id	
Description	Banner shall display total US recalls since 2004 along with the caption "Total US Recalls since 1/1/2004"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R99 {1} - The Software Home Page banner shall display total US recalls since 2004 along with the caption 'Total US Recalls since 1/1/2004'
Artifacts	
Test Steps	

16. Home Page banner displays total year-to-date recalls

Id	OI-T23 {1}
External Id	
Description	Banner shall display total year-to-date recalls along with the caption "Total year-to-date Recalls"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R100 {1} - The Software Home Page banner shall display total year-to-date recalls along with the caption 'Total year-to-date Recalls'
Artifacts	
Test Steps	

17. Home Page banner displays average recalls per day

Id	OI-T24 {1}
External Id	
Description	Banner shall display average recalls per day over year-to-date along with the caption "Average Recalls per day over calendar year"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R101 {1} - The Software Home Page banner shall display average recalls per day over year-to-date along with the caption 'Average Recalls per day over calendar year'
Artifacts	
Test Steps	

18. Home Page banner shall display % yearly change in total recalls

Id	OI-T25 {1}
External Id	
Description	Banner shall display % yearly change in total recalls by calendar year along with the caption "% Recall change by calendar year"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R102 {1} - The Software Home Page banner shall display % yearly change in total recalls by calendar year along with the caption '% Recall change by calendar year'
Artifacts	
Test Steps	

19. Home Page shall have donut graphs

Id	OI-T26 {1}
External Id	
Description	To ensure donut graphs exists on the home page
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R103 {1} - The Software Home Page shall have donut graphs
Artifacts	
Test Steps	

20. Donut graph shall display recalls by classification

Id	OI-T27 {1}
External Id	
Description	To test recalls by classification are displayed in donut graph
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R104 {1} - The Software Home Page donut graph shall display recalls by classification
Artifacts	
Test Steps	

21. Donut graph shall display recalls by recall status

Id	OI-T28 {1}
External Id	
Description	To test recalls by recall status are displayed in donut graph
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R105 {1} - The Software Home Page donut graph shall display recalls by recall status
Artifacts	
Test Steps	

22. Donut graph shall display numeric values

Id	OI-T29 {1}
External Id	
Description	User should be able to mouse over the bar to display numeric values
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R106 {1} - The Software Home Page donut graph shall allow the user to mouse over the bar to display numeric values
Artifacts	
Test Steps	

23. Home Page shall have a bar graph

Id	OI-T30 {1}
External Id	
Description	To test the bar graph existence in the home page
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R107 {1} - The Software Home Page shall have a bar graph
Artifacts	
Test Steps	

24. Home Page bar graph shall display recalls by notification type

Id	OI-T31 {1}
External Id	
Description	Bar graph shall display recalls by notification type since 2004 along with the caption "Recalls by Notification Type since 2004"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R108 {1} - The Software Home Page bar graph shall display recalls by notification type since 2004 along with the caption 'Recalls by Notification Type since 2004'
Artifacts	
Test Steps	

25. Home Page bar graph shall display numeric values

Id	OI-T32 {1}
External Id	
Description	User should be able to mouse over the bar to display numeric values
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R109 {1} - The Software Home Page bar graph shall allow the user to mouse over the bar to display numeric values
Artifacts	
Test Steps	

26. Home Page shall have a line graph

Id	OI-T33 {1}
External Id	
Description	To test the line graph existence in the home page
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R110 {1} - The Software Home Page shall have a line graph
Artifacts	
Test Steps	

27. Home Page line graph includes a timeline

Id	OI-T34 {1}
External Id	
Description	The timeline graph will display recalls over time
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R111 {1} - The Software Home Page line graph shall display a timeline graph of recalls over time
Artifacts	
Test Steps	

28. Home Page line graph includes a scrolling highlight line

Id	OI-T35 {1}
External Id	
Description	The scrolling highlight line shall display line graph numeric values
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R112 {1} - The Software Home Page line graph shall provide a scrolling highlight line that displays line graph numeric values
Artifacts	
Test Steps	

29. Home Page line graph includes a selection object

Id	OI-T36 {1}
External Id	
Description	The selection object shall allow users to choose among several fixed time intervals
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R113 {1} - The Software Home Page line graph shall contain a selection object to allow users to choose among several fixed time intervals
Artifacts	
Test Steps	

30. Home Page line graph shall have zoom functionality

Id	OI-T37 {1}
External Id	
Description	Allows the user to zoom over a time interval of their choice
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R114 {1} - The Software Home Page line graph display shall allow the user to zoom over time interval of choice
Artifacts	
Test Steps	

31. Search window shall have selection icons

Id	OI-T39 {1}
External Id	
Description	Icons for Install Notes, Release Notes, and Help Files
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R116 {1} - Search window shall have selection icons for Install Notes, Release Notes, and Help Files
Artifacts	
Test Steps	

32. Search window shall have additional selection icons

Id	OI-T40 {1}
External Id	
Description	Icons for Search and Monitor windows
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R117 {1} - Search window shall have selection icons for Search and Monitor windows
Artifacts	
Test Steps	

33. Search window displays search results

Id	OI-T41 {1}
External Id	
Description	To test search window displays search results
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R118 {1} - Search window shall display the search results
Artifacts	
Test Steps	

34. Search window display includes filters

Id	OI-T42 {1}
External Id	
Description	Search window shall display results based on user selected filters (city, state, initiation date range)
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R119 {1} - Search window shall display results based on user selected filters (city, state, initiation date range)
Artifacts	
Test Steps	

35. Search window shall have a line graph

Id	OI-T43 {1}
External Id	
Description	To test that search window have a line graph
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R120 {1} - Search window shall have a line graph
Artifacts	
Test Steps	

36. Search window line graph displays query results

Id	OI-T44 {1}
External Id	
Description	The query results should be displayed by product description
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R121 {1} - Search window line graph shall display query results by product description
Artifacts	
Test Steps	

37. Search window shall have a query selection region

Id	OI-T45 {1}
External Id	
Description	The query selection region shall allow the user to select keyword search terms
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R122 {1} - Search window shall have a query selection region that allows the user to select keyword search terms
Artifacts	
Test Steps	

38. Query selection region includes Search selection icon

Id	OI-T46 {1}
External Id	
Description	Ensuring search selection icon included in the query selection region
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R123 {1} - Query selection region shall have a Search selection icon
Artifacts	
Test Steps	

39. Query selection region shall include a search window

Id	OI-T47 {1}
External Id	
Description	The search window should be pre-populated with check boxes for selection
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R124 {1} - Query selection region shall have pre-populated search windows with check boxes
Artifacts	
Test Steps	

40. Search window includes selection object for display options

Id	OI-T48 {1}
External Id	
Description	The selection object shall allow query results to be displayed in Map View or Tabular View
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R125 {1} - Search window shall have a selection object to display query results by Map View or Tabular View
Artifacts	
Test Steps	

41. The Map View utilizes a US map

Id	OI-T49 {1}
External Id	
Description	The Map View shall display search results using icons on a US map
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R126 {1} - The map view shall display search results using icons on a US map
Artifacts	
Test Steps	

42. The Tabular View displays a table

Id	OI-T50 {1}
External Id	
Description	The Tabular View shall display search results in a scrollable table
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R127 {1} - The Tabular view shall display search results in a scrollable table
Artifacts	
Test Steps	

43. Map View defaults to US map

Id	OI-T51 {1}
External Id	
Description	The default view of the map view shall be a US map
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R128 {1} - The default view of the map view shall be a US map
Artifacts	
Test Steps	

44. Search results default to blank

Id	OI-T52 {1}
External Id	
Description	The default view of the search results with be blank
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R129 {1} - The default view of the search results will be blank
Artifacts	
Test Steps	

45. Line graph defaults to empty graph

Id	OI-T53 {1}
External Id	
Description	The default view of the line graph shall be an empty graph
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R130 {1} - The default view of the line graph shall be an empty graph
Artifacts	
Test Steps	

46. Search window allows for saving queries

Id	OI-T54 {1}
External Id	
Description	Search window shall have the ability to save query variables into a configuration file using a selection object
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R131 {1} - Search window shall have the ability to save query variables into a configuration file using a selection object
Artifacts	
Test Steps	

47. Search window allows for naming queries

Id	OI-T55 {1}
External Id	
Description	Search window shall have the ability to choose the name of the saved query
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R132 {1} - Search window shall have the ability to choose the name of the saved query
Artifacts	
Test Steps	

48. Monitor window shall have selection icons	
Id	OI-T57 {1}
External Id	
Description	Icons for Install Notes, Release Notes, and Help Files
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R134 {1} - Monitor window shall have selection icons for Install Notes, Release Notes, and Help Files
Artifacts	
Test Steps	

49. Monitor window shall have additional selection icons	
Id	OI-T58 {1}
External Id	
Description	Icons for Search and Monitor windows
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R135 {1} - Monitor window shall have selection icons for Search and Monitor windows
Artifacts	
Test Steps	

50. Monitor window shall have a line graph	
Id	OI-T59 {1}
External Id	
Description	
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R136 {1} - Monitor window shall have a line graph
Artifacts	
Test Steps	

51. Monitor window line graph displays query results	
Id	OI-T60 {1}
External Id	
Description	Monitor window line graph shall display query results over time
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R137 {1} - Monitor window line graph shall display query results over time
Artifacts	
Test Steps	

52. Monitor window table displays top five queries

Id	OI-T61 {1}
External Id	
Description	To ensure top five queries are displaying in the monitor window table
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R138 {1} - Monitor window tabular shall display top five queries
Artifacts	
Test Steps	

53. Monitor window shall have a banner

Id	OI-T62 {1}
External Id	
Description	To test that a banner exists in the monitor window
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R139 {1} - Monitor window shall have a banner
Artifacts	
Test Steps	

54. Monitor window banner shall display total queries	
Id	OI-T63 {1}
External Id	
Description	Banner shall display total queries along with the caption "Total queries since June 2015"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R140 {1} - Monitor window banner shall display total queries along with the caption 'Total queries since June 2015'
Artifacts	
Test Steps	

55. Monitor window banner shall display the average query time (ms) over all data	
Id	OI-T64 {1}
External Id	
Description	Banner shall display the average query time (ms) over all data since June 2015 along with the caption "Query Time since June 2015"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R141 {1} - Monitor window banner shall display the average query time (ms) over all data since June 2015 along with the caption 'Query Time since June 2015'
Artifacts	
Test Steps	

56. Monitor window banner shall display total year-to-date queries	
Id	OI-T65 {1}
External Id	
Description	Monitor window banner shall display total year-to-date queries along with the caption "Year-to-date queries since June 2015"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R142 {1} - Monitor window banner shall display total year-to-date queries along with the caption 'Year-to-date queries since June 2015'
Artifacts	
Test Steps	

57. Monitor window banner shall display average queries per day	
Id	OI-T66 {1}
External Id	
Description	Monitor window banner shall display average queries per day along with the caption "Average queries per day since June 2015"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R143 {1} - Monitor window banner shall display average queries per day along with the caption 'Average queries per day since June 2015'
Artifacts	
Test Steps	

58. Monitor window banner shall display yearly change in total queries

Id	OI-T67 {1}
External Id	
Description	Monitor window banner shall display yearly change in total queries along with the caption "Yearly change in total queries"
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R144 {1} - Monitor window banner shall display yearly change in total queries along with the caption 'Yearly change in total queries'
Artifacts	
Test Steps	

59. Software Home Page includes a banner

Id	OI-T68 {1}
External Id	
Description	The banner shall be derived from FDA metadata
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R150 {1} - The Software Home Page shall have a banner derived from FDA metadata
Artifacts	
Test Steps	

60. Software can process FDA metadata

Id	OI-T69 {1}
External Id	
Description	To ensure that FDA metadata can be processed in the application
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R151 {1} - The Software shall be capable of processing FDA metadata
Artifacts	
Test Steps	

61. Software loads ontologies from a config file

Id	OI-T70 {1}
External Id	
Description	Software shall load a target ontology from a system configuration file
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R152 {1} - The Software shall load a target ontology from a system configuration file
Artifacts	
Test Steps	

62. Overview services calculates total food recalls

Id	OI-T72 {1}
External Id	
Description	To test the systems ability to calculate total food recalls
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R154 {1} - Overview services shall calculate the total number of food recalls
Artifacts	
Test Steps	

63. Overview services calculates total US recalls

Id	OI-T73 {1}
External Id	
Description	To test the systems ability to calculate total U.S. recalls
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R155 {1} - Overview services shall calculate the total US recalls
Artifacts	
Test Steps	

64. Overview services calculates total year-to-date food recalls

Id	OI-T74 {1}
External Id	
Description	To test the systems ability to calculate total year-to-date food recalls
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R156 {1} - Overview services shall calculate the total year-to-date food recalls
Artifacts	
Test Steps	

65. Overview services calculates average recalls per day

Id	OI-T75 {1}
External Id	
Description	To test the systems ability to calculate total average recalls per day
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R157 {1} - Overview services shall calculate the average recalls per day
Artifacts	
Test Steps	

66. Overview services calculates yearly change in total recalls

Id	OI-T76 {1}
External Id	
Description	To test the systems ability to calculate the yearly change in total recalls
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R158 {1} - Overview services shall calculate the yearly change in total recalls
Artifacts	
Test Steps	

67. Overview services calculates % of total recalls by product type

Id	OI-T77 {1}
External Id	
Description	To test the systems ability to calculate the percentage of total recalls by product type
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R159 {1} - Overview services shall calculate the % of total recalls by product type
Artifacts	
Test Steps	

68. Overview services calculates % of food recalls by Class

Id	OI-T78 {1}
External Id	
Description	To test the systems ability to calculate the percentage of food recalls by class
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R160 {1} - Overview services shall calculate the % of food recalls by Class
Artifacts	
Test Steps	

69. Overview services calculates % of food recalls by recall status

Id	OI-T79 {1}
External Id	
Description	To test the systems ability to calculate the percentage of food recalls by recall status
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R161 {1} - Overview services shall calculate the % of food recalls by recall status
Artifacts	
Test Steps	

70. Overview services calculates number of notifications by type	
Id	OI-T80 {1}
External Id	
Description	To test the systems ability to calculate the number of notifications by type
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R162 {1} - Overview services shall calculate the number of notifications by type
Artifacts	
Test Steps	

71. Overview services calculates number of food recalls over time	
Id	OI-T81 {1}
External Id	
Description	To test the systems ability to calculate the number of food recalls over time
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R163 {1} - Overview services shall calculate the number of food recalls over time
Artifacts	
Test Steps	

72. Search services calculates total food recall count over time

Id	OI-T82 {1}
External Id	
Description	To test the systems ability to calculate the total food recall count over time
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R166 {1} - Search services shall calculate the total food recall count over time
Artifacts	
Test Steps	

73. Search services converts named locations to lat long locations

Id	OI-T83 {1}
External Id	
Description	To test the systems ability to convert named locations to lat/long location
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R167 {1} - Search services shall convert named locations to lat long expressed locations
Artifacts	
Test Steps	

74. Search services converts expressed locations to a map

Id	OI-T84 {1}
External Id	
Description	To test the systems ability to convert expressed location to a map
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R168 {1} - Search services shall convert expressed locations to a map
Artifacts	
Test Steps	

75. Save services shall be able to save queries

Id	OI-T85 {1}
External Id	
Description	Save services shall have the ability to save query variables into a configuration file
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R169 {1} - Save services shall have the ability to save query variables into a configuration file
Artifacts	
Test Steps	

76. Save services shall be able to name queries

Id	OI-T86 {1}
External Id	
Description	Save services shall have the ability to choose the name of the saved query
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R170 {1} - Save services shall have the ability to choose the name of the saved query
Artifacts	
Test Steps	

77. Monitoring services calculates total number of queries

Id	OI-T88 {1}
External Id	
Description	To test that the monitoring services calculate the total number of queries
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R172 {1} - Monitoring services shall calculate the total number queries
Artifacts	
Test Steps	

78. Monitoring services calculates query time (ms)

Id	OI-T89 {1}
External Id	
Description	To test that the monitoring services calculate the query time in milliseconds
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R173 {1} - Monitoring services shall calculate query time (ms)
Artifacts	
Test Steps	

79. Monitoring services calculate total year-to-date queries

Id	OI-T90 {1}
External Id	
Description	To test that the monitoring services calculate the total year-to-date queries
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R174 {1} - Monitoring services shall calculate total year-to-date queries
Artifacts	
Test Steps	

80. Monitoring services calculates average queries in a day

Id	OI-T91 {1}
External Id	
Description	To test that the monitoring services calculate the average queries in a day
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R175 {1} - Monitoring services shall calculate average queries per day
Artifacts	
Test Steps	

81. Monitoring services calculates yearly change in total queries

Id	OI-T92 {1}
External Id	
Description	To test that the monitoring services calculate the yearly change in total queries
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R176 {1} - Monitoring services shall calculate yearly change in total queries
Artifacts	
Test Steps	

82. Monitoring services calculate test total number of query counts over time

Id	OI-T93 {1}
External Id	
Description	To test that the monitoring services calculate the total number of query counts over time
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R177 {1} - Monitoring services shall calculate the total number of query counts over time
Artifacts	
Test Steps	

83. Monitoring services calculates total number of queries by type

Id	OI-T94 {1}
External Id	
Description	To test that the monitoring services calculate the number of queries by type
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R178 {1} - Monitoring services shall calculate the total number of queries by type
Artifacts	
Test Steps	

84. Monitoring services calculates the top five queries to date

Id	OI-T95 {1}
External Id	
Description	To test that the monitoring services calculate the top five queries to date
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R179 {1} - Monitoring services shall calculate the top five queries to date
Artifacts	
Test Steps	

85. Monitoring services extracts total number of queries

Id	OI-T96 {1}
External Id	
Description	To test that the monitoring services extracts the total number of queries
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R180 {1} - Monitoring services shall extract the total number of queries
Artifacts	
Test Steps	

86. Monitoring services extracts total number of instances

Id	OI-T97 {1}
External Id	
Description	To test that the monitoring services extracts the of instances
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R181 {1} - Monitoring services shall extract the total number of instances
Artifacts	
Test Steps	

87. Search results default to blank

Id	OI-T98 {1}
External Id	
Description	The default view of the search results will be blank
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R182 {1} - The default view of the search results will be blank
Artifacts	
Test Steps	

88. The line graph defaults to empty

Id	OI-T99 {1}
External Id	
Description	The default view of the line graph will be an empty graph
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R183 {1} - The default view of the line graph shall be an empty graph
Artifacts	
Test Steps	

89. Search window is able to save queries

Id	OI-T100 {1}
External Id	
Description	Search window shall have the ability to save query variables into a configuration file using a selection object
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R184 {1} - Search window shall have the ability to save query variables into a configuration file using a selection object
Artifacts	
Test Steps	

90. Search window can name queries

Id	OI-T101 {1}
External Id	
Description	Search window shall have the ability to choose the name of the saved query
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R185 {1} - Search window shall have the ability to choose the name of the saved query
Artifacts	
Test Steps	

91. Search window shall display all query results

Id	OI-T103 {1}
External Id	
Description	The display should list all query results in chronological order and include all metadata
Categories	
Attachments	
Depends On	
Dependents	
Requirements	OI-R204 {1} - Search window shall display all query results in chronological order and include all metadata
Artifacts	
Test Steps
