Summary

Id	Requirement Summary	Priority	Status
OI-R1 {1}	Web Application	--	--
OI-R2 {1}	The software shall adhere to the Orbis Style Guide	Critical	Closed
OI-R9 {1}	The software shall have a README file that contains the project requirements	Critical	Closed
OI-R8 {1}	The software shall be deployed and tested in an Orbis Amazon Web Services (AWS) environment	Critical	Closed
OI-R5 {1}	Browser Requirements	--	--
OI-R13 {1}	The software shall be displayed uniformly from either a mobile device, laptop or desktop	Critical	Closed
OI-R14 {1}	The software shall operate in modern web browsers	--	--
OI-R15 {1}	System shall support current and two previous releases of Firefox browser	Critical	Closed
OI-R16 {1}	System shall support current and two previous releases of Internet Explorer browser	Critical	Closed
OI-R17 {1}	System shall support current and two previous releases of Google Chrome browser	Critical	Closed
OI-R35 {1}	Home Page	--	--
OI-R20 {1}	The software Home Page shall include the Wiley logo	Critical	Closed
OI-R21 {1}	The software Home Page shall include selection objects, FDA statistics, release notes, help files, and contact information	Critical	Closed
OI-R22 {1}	The Software Home Page shall have selection icons for Search and Monitor windows	Critical	Closed
OI-R150 {1}	The Software Home Page shall have a banner derived from FDA metadata	--	--
OI-R98 {1}	The Software Home Page banner shall display total Food recalls since 1/1/2004 along with the caption 'Total Recalls since 1/1/2004'	Critical	Closed
OI-R99 {1}	The Software Home Page banner shall display total US recalls since 2004 along with the caption 'Total US Recalls since 1/1/2004'	Critical	Closed
OI-R100 {1}	The Software Home Page banner shall display total year-to-date recalls along with the caption 'Total year-to-date Recalls'	Critical	Closed
OI-R101 {1}	The Software Home Page banner shall display average recalls per day over year-to-date along with the caption 'Average Recalls per day over calendar year'	Critical	Closed
OI-R102 {1}	The Software Home Page banner shall display % yearly change in total recalls by calendar year along with the caption '% Recall change by calendar year'	Critical	Closed
OI-R103 {1}	The Software Home Page shall have donut graphs	--	--
OI-R104 {1}	The Software Home Page donut graph shall display recalls by classification	Critical	Closed
OI-R105 {1}	The Software Home Page donut graph shall display recalls by recall status	Critical	Closed
OI-R106 {1}	The Software Home Page donut graph shall allow the user to mouse over the bar to display numeric values	Critical	Closed
OI-R107 {1}	The Software Home Page shall have a bar graph	--	--

Id	Requirement Summary	Priority	Status
OI-R108 {1}	The Software Home Page bar graph shall display recalls by notification type since 2004 along with the caption 'Recalls by Notification Type since 2004'	Critical	Closed
OI-R109 {1}	The Software Home Page bar graph shall allow the user to mouse over the bar to display numeric values	Critical	Closed
OI-R110 {1}	The Software Home Page shall have a line graph	--	--
OI-R111 {1}	The Software Home Page line graph shall display a timeline graph of recalls over time	Critical	Closed
OI-R112 {1}	The Software Home Page line graph shall provide a scrolling highlight line that displays line graph numeric values	Critical	Closed
OI-R113 {1}	The Software Home Page line graph shall contain a selection object to allow users to choose among several fixed time intervals	Critical	Closed
OI-R114 {1}	The Software Home Page line graph display shall allow the user to zoom over time interval of choice	Critical	Closed
OI-R115 {1}	Search Window	--	--
OI-R116 {1}	Search window shall have selection icons for Install Notes, Release Notes, and Help Files	Critical	Closed
OI-R117 {1}	Search window shall have selection icons for Search and Monitor windows	Critical	Closed
OI-R118 {1}	Search window shall display the search results	Critical	Closed
OI-R119 {1}	Search window shall display results based on user selected filters (city, state, initiation date range)	Critical	Closed
OI-R120 {1}	Search window shall have a line graph	--	--
OI-R121 {1}	Search window line graph shall display query results by product description	Critical	Closed
OI-R122 {1}	Search window shall have a query selection region that allows the user to select keyword search terms	--	--
OI-R123 {1}	Query selection region shall have a Search selection icon	Critical	Closed
OI-R124 {1}	Query selection region shall have pre-populated search windows with check boxes	Critical	Closed
OI-R125 {1}	Search window shall have a selection object to display query results by Map View or Tabular View	--	--
OI-R126 {1}	The map view shall display search results using icons on a US map	Critical	Closed
OI-R127 {1}	The Tabular view shall display search results in a scrollable table	Critical	Closed
OI-R204 {1}	Search window shall display all query results in chronological order and include all metadata	Critical	Closed
OI-R128 {1}	The default view of the map view shall be a US map	Critical	Closed
OI-R129 {1}	The default view of the search results will be blank	Critical	Closed
OI-R130 {1}	The default view of the line graph shall be an empty graph	Critical	Closed
OI-R131 {1}	Search window shall have the ability to save query variables into a configuration file using a selection object	Critical	Closed
OI-R132 {1}	Search window shall have the ability to choose the name of the saved query	Critical	Closed
OI-R133 {1}	Monitor Window	--	--
OI-R134 {1}	Monitor window shall have selection icons for Install Notes, Release Notes, and Help Files	Critical	Closed
OI-R135 {1}	Monitor window shall have selection icons for Search and Monitor windows	Critical	Closed
OI-R136 {1}	Monitor window shall have a line graph	--	--
OI-R137 {1}	Monitor window line graph shall display query results over time	Critical	Closed
OI-R138 {1}	Monitor window tabular shall display top five queries	Critical	Closed
OI-R139 {1}	Monitor window shall have a banner	--	--
OI-R140 {1}	Monitor window banner shall display total queries along with the caption 'Total queries since June 2015'	Critical	Closed

Id	Requirement Summary	Priority	Status
OI-R141 {1}	Monitor window banner shall display the average query time (ms) over all data since June 2015 along with the caption 'Query Time since June 2015'	Critical	Completed
OI-R142 {1}	Monitor window banner shall display total year-to-date queries along with the caption 'Year-to-date queries since June 2015'	Critical	Completed
OI-R143 {1}	Monitor window banner shall display average queries per day along with the caption 'Average queries per day since June 2015'	Critical	Completed
OI-R144 {1}	Monitor window banner shall display yearly change in total queries along with the caption 'Yearly change in total queries'	Critical	Completed
OI-R4 {1}	Data Services	--	--
OI-R203 {1}	Ingest	--	--
OI-R151 {1}	The Software shall be capable of processing FDA metadata	Critical	Completed
OI-R206 {1}	The software shall ingest from openFDA	Critical	Completed
OI-R152 {1}	The Software shall load a target ontology from a system configuration file	Critical	Completed
OI-R153 {1}	Analytics	--	--
OI-R154 {1}	Overview services shall calculate the total number of food recalls	Critical	Completed
OI-R155 {1}	Overview services shall calculate the total US recalls	Blocker	Completed
OI-R156 {1}	Overview services shall calculate the total year-to-date food recalls	Blocker	Completed
OI-R157 {1}	Overview services shall calculate the average recalls per day	Blocker	Completed
OI-R158 {1}	Overview services shall calculate the yearly change in total recalls	Blocker	Completed
OI-R159 {1}	Overview services shall calculate the % of total recalls by product type	Critical	Completed
OI-R160 {1}	Overview services shall calculate the % of food recalls by Class	Blocker	Completed
OI-R161 {1}	Overview services shall calculate the % of food recalls by recall status	Critical	Completed
OI-R162 {1}	Overview services shall calculate the number of notifications by type	Blocker	Completed
OI-R163 {1}	Overview services shall calculate the number of food recalls over time	Critical	Completed
OI-R166 {1}	Search services shall calculate the total food recall count over time	Blocker	Completed
OI-R167 {1}	Search services shall convert named locations to lat long expressed locations	Critical	Completed
OI-R168 {1}	Search services shall convert expressed locations to a map	Blocker	Completed
OI-R169 {1}	Save services shall have the ability to save query variables into a configuration file	Critical	Completed
OI-R170 {1}	Save services shall have the ability to choose the name of the saved query	Critical	Completed
OI-R171 {1}	Monitoring	--	--
OI-R172 {1}	Monitoring services shall calculate the total number queries	Critical	Completed
OI-R173 {1}	Monitoring services shall calculate query time (ms)	Blocker	Completed
OI-R174 {1}	Monitoring services shall calculate total year-to-date queries	Critical	Completed
OI-R175 {1}	Monitoring services shall calculate average queries per day	Blocker	Completed
OI-R176 {1}	Monitoring services shall calculate yearly change in total queries	Critical	Completed
OI-R177 {1}	Monitoring services shall calculate the total number of query counts over time	Blocker	Completed
OI-R178 {1}	Monitoring services shall calculate the total number of queries by type	Blocker	Completed

Id	Requirement Summary	Priority	Status
OI-R179 {1}	Monitoring services shall calculate the top five queries to date	Blocker	Completed
OI-R180 {1}	Monitoring services shall extract the total number of queries	Blocker	Completed
OI-R181 {1}	Monitoring services shall extract the total number of instances	Critical	Completed
OI-R182 {1}	The default view of the search results will be blank	Critical	Completed
OI-R183 {1}	The default view of the line graph shall be an empty graph	Critical	Completed
OI-R184 {1}	Search window shall have the ability to save query variables into a configuration file using a selection object	Critical	Completed
OI-R185 {1}	Search window shall have the ability to choose the name of the saved query	Critical	Completed
OI-R3 {1}	Database	--	--
OI-R10 {1}	Backend shall use Sesame for data store	Critical	Completed
OI-R11 {1}	Data shall be stored as RDF	Critical	Completed
OI-R12 {1}	The data shall consist of metadata from openFDA	Critical	Completed

Details
